

***Remarks***

The specification has been amended herein only to include a paragraph which contains the prior application data and to include an abstract on a separate sheet. No new matter is added by way of these amendments.

Upon entry of the foregoing amendment, claims 1-6 and 8-11 are pending in the application, with claim 1 being the independent claim. Claim 7 is sought to be canceled without prejudice to or disclaimer of the subject matter therein. Claims 1-6, 8 and 9 are sought to be amended. Claims 10 and 11 are sought to be added. These changes are believed to introduce no new matter, and their entry is respectfully requested.

The claims were originally written in the German language. The claims were translated into the English language and filed with this National Phase application. The amended claims have merely been rewritten from the translated version using more conventional U.S. claim language and to more succinctly claim that which the inventors believe to be their invention. Therefore, support for the amendments can be found in the original claims.

Applicant respectfully submits that the amendments and new claims add no new matter, and their entry is respectfully requested.

***Conclusion***

Prompt and favorable consideration of this Preliminary Amendment is respectfully requested. Applicants believe the present application is in condition for allowance. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.

Respectfully submitted,
